

Supporting Clients In **QATAR** 

**Project Delivery** Business Improvement

making the difference

We bring you all the expertise, experience and resources of a multi award winning global consultancy, with 2,400 people operating from a worldwide network of 59 offices.

## **Making The difference To Your Success In QATAR**

When you make a significant capital investment, you need to be sure that you're getting the best value for money.

Across the Middle East, companies are seeking strategic consultancy services that deliver the highest levels of certainty and control over the cost, delivery and quality of their investments in infrastructure and built assets.

Turner & Townsend is delivering fresh ideas to a wide range of organisations in Qatar, including those in the energy, infrastructure, education and health services sectors, to complete their projects on time and on budget.

Our 85 Middle Eastern staff, based in Qatar, Dubai and Abu Dhabi, are part of a global network of consultants helping local and international businesses achieve success. We specialise in providing Project Management and Cost Management services, having supported businesses across the world since Turner & Townsend's inception in the UK over 60 years ago. We also have extensive expertise in Programme Management, Management Consultancy and Facilities Management. We are currently providing services for the Beijing Wheel in China, The Shard in London, England, Sydney's CBD Metro in Australia and the Gautrain Rapid Rail Link in South Africa.

We are a global consultancy, with a passionate commitment to making a real and measurable difference to your success.

We have relied upon Turner & Townsend's expertise throughout the early stages of the Michael Schumacher World Champion Tower & Wharf project in Dubai, and they have positively contributed to the provision of a buildable concept design for a complex development.
