making the difference
Introduction

Turner & Townsend provides expert advisory services and expert opinion within our dedicated Contract Services division, where we can assist at any stage of the dispute cycle.

This register provides the profiles of our leading experts and quantum and delay specialists who possess detailed experience in providing both expert advisory and/or expert witness services globally, under a range of jurisdictions and rules.

Those instructing us in any legal matters can be safe in the knowledge that our independent advice will provide the best technical opinion, standards and industry practice.

By drawing on our specialist knowledge, allied to the strength and depth of Turner & Townsends’ experience on major capital programmes across the Infrastructure, Real Estate and Natural Resources sectors, we are confident that our independent expert services can be relied upon in the most complex and large scale disputes.

- **High Integrity**
- **Trusted and Respected Expert Opinion**
- **Industry Advantage, global presence**
Name: John Boultwood
Location: Dubai, UAE
Qualifications/Memberships: MRICS; MCIArb; FICES; LLB; BSc
Service: Quantum
Years of experience: 30+
Sectors: Infrastructure, property, aviation, highways, refineries, nuclear power, water treatment, rail, oil & gas, renewable energy, tunnelling and power generation.
Email: john.boultwood@turntown.com
Tel: +971 (0) 56 255 8411

John joined Turner & Townsend in 1989 and is the Global Head of Contract Services across the company’s eight regions of operation. John’s role encompasses support on projects that are being delivered during the construction phase, as well as providing advice upon disputes and dispute avoidance. He has wide experience advising both major international contractors and client bodies including government entities globally, and his role encompasses advice on live projects and dispute advice after project close out.

John has truly global experience having worked in over 35 countries, providing commercial advice on major projects and programmes at all stages of the project cycle and he has wide experience in dispute avoidance and the commercial management of disputes. In project set up stage, John advises clients on procurement strategy and the most suitable commercial models for projects.

He has testified as a quantum expert on numerous occasions in many major disputes and has provided opinion at trial on a range of subject matters related to quantity surveying and opinion on issues related to estimating, project budgets, termination valuation, cost and financial audit, preparation of final accounts, valuation of variations, re-measurement, inflation and assessment of disruption/prolongation cost claims. He has worked across the UK, Dominican Republic, India, the Middle East, Nigeria, Democratic Republic of Congo, Kazakhstan, Malaysia, Gibraltar and Romania.

WWL says:
John is a “highly experienced” and “very well known” construction expert who is recognised as a leading name in the Middle East.

John Boultwood provides “clear” and “sound” advice to clients and is praised for the quality of his testimony.

Tim is head of Dispute Resolution for Turner & Townsend in the UK and Europe. He has over twenty five years of experience as a chartered Quantity Surveyor, with over fifteen of those years specialising in claims, dispute resolution and expert witness work.

He provides independent advice to clients and contractors on contractual issues and quantum matters on construction and infrastructure projects, with special expertise in the avoidance or resolution of disputes before they escalate. He acts as a quantum expert witness in litigation, arbitration and adjudication, including professional negligence cases. Tim is a member of the Chartered Institute of Arbitrators, has an MSc in Construction Law and Arbitration and is a RICS accredited mediator.

Tim has acted as a quantum expert in over 50 cases and has been cross examined in the Technology and Construction Court in London and both domestic and international arbitrations, along with representation in adjudication and mediation. His experience covers a whole range of quantity surveying issues including project budgets, re-measurement, valuation of variations and claims, final accounts, cost audits, disruption and prolongations, suspension and termination. Tim has also acted as quantum expert in numerous professional negligence claims including those involving quantity surveyors and also in cases involving fraud. He has worked in the UK, Europe, Middle East, Africa and Asia.

WWL says:
Tim Tapper is highlighted as “a pragmatic quantum expert who is able to maintain the highest standards while helping to achieve the client’s objectives”.

http://whoswholegal.com/profiles/83958/0/tapper/tim-tapper/
Ryan is a director at Turner & Townsend and head of Middle East Contract Services based in the United Arab Emirates. He has over fifteen years’ experience, specialising in dispute resolution, dispute management and expert witness services. He has focused the majority of his career in the Middle East and is bi-lingual so able to serve the needs of clients in both Arabic and English and has formally acted in both languages.

He provides independent advice to clients and contractors on contractual issues and quantum matters on construction and civil engineering projects, and is regularly called upon to provide support and guidance to parties through the complexities of dispute resolution and arbitration in Middle Eastern jurisdictions.

He acts as a quantum expert witness in arbitration as an arbitrator and advisor and has given evidence in both English and Arabic. Ryan is a chartered quantity surveyor, a member of the Chartered Institute of Arbitrators and holds an LLM in Construction Law and Arbitration. He is also a Royal Institution of Chartered Surveyors accredited mediator. Ryan’s experience is across the Middle East, Africa and UK.

WWL says:
Ryan Shalabi "knows construction through and through" and is "very active in the Muscat market”; according to interviewees.
http://whoswholegal.com/profiles/83920/0/shalabi/ryan-shalabi/
Paul is a director at Turner & Townsend and Delay expert based in London. He has been actively involved in construction planning and project management for thirty years, with the last ten years spent providing expert advice and consultancy in forensic planning and project management.

Paul has provided expert opinion in forensic planning and project management negligence matters in adjudication, arbitration and litigation and has testified in the UK TCC (litigation), Poland (litigation) and Dubai (DIAC Arbitrations) as a forensic planning expert. He also provides independent third party reviews on behalf of major infrastructure providers to highlight and address commercial, contractual or programme risk prior to full commercial commitment. He has international experience in the United Kingdom, Europe, Africa, Latin America and the Middle East.

WWL says:
Paul Greenwell wins high praise from sources who commend his “ability to provide clear and persuasive reports” as well as his “strong analytical and presentational skills”.

Alan joined Turner & Townsend in 2011 as the director responsible for establishing and launching our Scottish Contract Services division. Alan has significant construction experience in advising on commercial and contractual approaches across a diverse portfolio of projects in the public and private sectors. Alan’s role encompasses support on projects that are being delivered during the construction phase, as well as providing advice upon disputes and dispute avoidance.

He has wide experience advising both contractors and client bodies including government entities. From an engineering background, Alan has defined skills in preparing and defending contractors’ claims, preparing independent reviews of projects in dispute, contract advice, adjudication, arbitration and expert witness work in the United Kingdom, Europe and the Middle East.

In addition, Alan is also regularly instructed to provide expert opinion on quantum matters, such as preparation of final accounts, valuation of variations, re-measurement, inflation and assessment of disruption/prolongation cost claims. Alan is a chartered engineer, a member of the Chartered Institute of Arbitrators and Institution of Civil Engineers and has a masters’ degree in construction law. Alan regularly acts as delay and quantum expert and has been cross examined in a number of tribunals on a range of subject matters related to delay, disruption and quantum.

WWL says:
Alan Sinclair has an in-depth knowledge of the construction industry and is “exceptionally responsive and user friendly”.

Richard is a director of Contract Services based in Leeds. Richard is a qualified quantity surveyor with over 20 years’ of experience in construction and engineering services, working for consultants, contractors and as a contract engineer.

He has provided expert opinion in respect of quantum, disruption and delay on behalf of contractors, sub contractors and other clients at adjudication and mediation. An accredited counter fraud specialist, Richard also has significant experience in forensic cost auditing.

He has successfully covered many aspects of dispute management including advising on, initiating, briefing lawyers, preparation and submission of claims, negotiations & settlements and involvement in adjudication, mediation, arbitration, & litigation as adviser, Client representative and expert witness.

Richard has experience in the UK, the US, Europe, Scandinavia and the Middle East.
William has over thirty years of industry experience for both contractors and consultants, he has acted as expert witness in more than twenty disputes, including cross examination. He has prepared and defended claims both as a contractor and on behalf of other parties as a consultant and has experience in mediation, adjudication, arbitration and litigation.

From a chartered Quantity Surveying background, William has provided commercial management of major construction projects and is experienced in traditional, D&B, PPP, EPC methods of procurement using ICE, FIDIC, NEC, and JCT forms of contract and has successfully led high value claims and disputes through to resolution. William’s project experience includes hardened aircraft shelters, roads, nuclear power stations, airports, water treatment works, dredging works, harbour works, reclamation, landing & berthing facilities, various building projects and LNG and refinery facilities with values ranging from £5m to £1.5bn.

William has gained this experience on projects across UK & Europe, Middle East, Singapore and Australia.
Chris is a Senior Vice President with Turner & Townsend in the USA, based in Houston, Texas. He has over 30 years of experience with construction projects across six continents and multiple industries, including oil & gas, utilities, aviation, alternative energy, manufacturing, buildings, pharmaceutical, and transportation.

He is familiar with all phases of project development and execution, with expertise in Project Controls, Planning & Scheduling, Claims Analysis, Risk Management, and Project Development.

He has supported clients with dispute resolution services in oil & gas projects, power generation projects, commercial buildings, medical facilities, highway, and rail projects. He has provided an independent evaluation of claims for clients and supported their negotiations to reach reasonable settlements. He has served as an expert witness in formal ICC arbitration proceedings on schedule delay, estimating practices, project management, and quantum impacts.

Chris has authored or co-authored eleven papers, including a paper entitled Project Claims Avoidance for Owners which was published by AACE International in 2017 as a part of its Claims and Dispute Resolution Track.
